

**default:**

*l j*

**with custom math font: XCharter Math**

*there is also an “xcharter-math” (the dash is important), which is the bold variant, but doesn't work in tandem automatically*

*l j*

*l j*

**direct unicode calls kind of work but not really**

*l j l j*

*l j l j*

*l j l j*

**Now a silly workaround**

*l j*
